

CAR WASHER

TECHNICAL DATA:

Water output	750 Ltrs/Hr
Operating Pressure	110 bars/1600 PSI
Motor Rating	3 KW/4.5 HP
Discharge Hose	10 Mtrs
Spray Lance	75/150/500/1040mm
Spray Nozzle	25 /0(Only one)

FEATURES :

- High Pressure Cleaner with advanced design, Twin Piston reciprocating pump, suitable for all type of cleaning/servicing/deoiling/ de-greasing purpose, four times the normal pressure and unbelievably compact design for easy mobility
- Fan Spray jet of water covering larger surface are for very effective and through cleaning compared to normal spray jet on regular washers
- High cleaning efficiency achieved in over 50% less time due to combination of high pressure & fan spray jet
- Vibration free operation due to high class quality reciprocation pump & pulsation dumper
