

Fully Automatic A/C Service Equipment GEA 01

SPECIFICATIONS :

Recovery Speed	3 g/s
Recycling Speed	8.0 g/s
Vacuum Speed	1.0 g/s
Recharging Speed	18g/s
Scale Accuracy	±10g/s
Work Tank Capacity	10kg
Dry Filter Capability	60kg R134a
Power Supply	50 Hz 230 V Single Phase

FUNCTIONS:

- Recovers refrigerant from the automobile air conditioner system
- After recycling, the refrigerant quality is in accordance with SAE standards
- Separate drain and Fresh A/C system oil
- Electro-magnetic valve controls the injection of A/C system oil
- Automatically removes the incondensable gases in refrigerant
- Electronic balance measures the recycled and recharged refrigerant during the whole process

CHARACTERISTICS :

- Micro-computer controls the whole process
- Liquid crystal bright background display
- Electro-magnetic valve design prevents damage from liquid flow
- Fast and convenient self-sealing connections
- Automatic reminding of problem checking and alarming
- Automatic reminding of present operation states
- Automatic reminding of daily maintenance
