

## Mgm Dent Liner

### TECHNICAL PARAMETER :

Power supply	2ph 400V 50/60Hz
Thermal	105°C
Max current	4200A
No-load voltage	13V
Size	61*41*45cm
Weight	48kg
Model	BX-962
Power supply	2ph 380V 50/60Hz
Pin	φ4mm-6mm
Max current	9000A
Loading voltage	40-180V
Size	61*41*45cm
Weight	31kg
Trolley and Acc	120*80*60cm
Trolley weight	80kg
Packing	Wooden
Certification	ISO CE
Code	101000

Car body repair system is a combination of steel and aluminium dent pulling kit, indispensable for dent pulling of small, medium, and big chocks, (door, cover...) for pin welding, avoiding thinning

### FEATURES :

- Remove dents without disassembling
- Repair without replacing
- Reduce the down-time
- Increase your margin
- Increase your productivity
- Precision current and voltage control system
- For aluminium, steel car body repairing
- Control with a digital microprocessor
- Digital display, easy to operate
- Welding Ø4-Ø6mm aluminium stud and steel stud
